

The most up to date **THYROID PROFILE**

TSH FT4 FT3 T4 T3
Thyreoglobulin - Anti TSH Receptors
Anti Tg - Anti TPO

**Complete functional and
immunological status assessment**

Diametra is part of IDS Group

Diametra offers a wide range of tests for evaluating thyroid function more accurate and reliable than it was possible just a few years ago.

Ensuring healthy thyroid function is a valuable tool in preventive medicine.

Optimal Thyroid function may help safeguard against the onset of diabetes, obesity, heart diseases and depression.

Thyroid Hormones also play central metabolic roles in healthy sexual and reproductive function in both, women and men.

Beacuse they are essential for IGF-1 production, Thyroid Hormones significantly affect lipid metabolism.

These tests may reveal important clinical information about:

- Central Thyroid dysregulation
- Peripheral Thyroid Imbalances
- Thyroid antibody levels

PRODUCT INFORMATION	
DKO013	TSH (Thyroid-stimulating hormone)
DKO037	Free T3 (Free Triiodothyronine)
DKO038	Free T4 (Free Thyroxine)
DKO044	Total T3 (Total Triiodothyronine)
DKO045	Total T4 (Total Thyroxine)
DKO048	Thyreoglobulin
DKO085	TSH Receptors (Thyreotropine Receptor Autoantibodies)
DKO115	Anti-TG (Autoantibodies against Thyreoglobulin)
DKO116	Anti-TPO (Autoantibodies against Thyroid Peroxidase)
